

CITY OF HOUSTON-WATER LINE UPGRADES

OWNER:	City of Houston
GENERAL CONTRACTOR:	Boyer
ENGINEER:	LAN
BOYER CONTRACT:	\$4,700,000
TYPE OF CONTRACT:	Prime Contract
PROJECT TYPE:	Rehab. Utilities
COMPLETION DATE:	2007

Boyer is installing supplemental service waterlines and rehabilitating 24/30/36" waterlines along Calumet, Westpark, Mid Lane and Westheimer streets. This project includes the installation of Weco Seals on existing Lead joint cast iron water mains shown above. Work required confined space entry in approx. 500' segments to install new Weco Seals . Boyer also installed new manways on the 40 yr old cast iron waterlines. Installed bypass lines and service customers while performing rehabilitating work.
